

Financial add-ons from Xero

Receipt-bank is designed to remove the hassle of receipts and invoices

Receipt Bank is a handy tool that removes the need for you to hold on to piles of receipts. Simply take a photo from your smart phone and Receipt Bank sends it to Xero.

Receipt bank extracts the key information from your bills so you don't have to spend time on manual data entry. You can then publish the data to your accounting software or it can be downloaded as a spreadsheet or used to create expense reports.

For more information visit www.receipt-bank.com or contact Alison Leech at [ibentleys](mailto:ibentleys@receipt-bank.com) on 01204 388675.
